Just to verify, the EN Overlay was repealed and Chapter 84.29 was approved. Is that correct?

Yes, it was repealed by the Board at the hearing today - the repeal is effective March 23rd (there is a delay because it is an ordinance)

Hi Carrie,

According to your email below, you expected to go to the County Board today for the decision regarding proposed Chapter 84.29 of the Development Code and the repeal of the EN Overlay. If this is still the case, will you please let us know the outcome as soon as you are able? The AMS project is a high priority for the Energy Commission and this is one of the last outstanding issues for the land use analysis.

We really appreciate all of your help with this project.

Thank you,

Susanne Huerta

We will have the meeting minutes early next week. We can have some generalized conditions by Jan. 23rd.

Here are the new standards that will negate the General Plan Amendment requirement. We hope to go to the County Board on Feb 9th to repeal the overlay and substitute the attached, and that would become effective 30 days later. However, the Board could decide something different, so we will have to wait and see what happens Feb. 9th.
