    Interveners and Interested Parties

Subject: Supplementary MODFLOW files

All:

The files on the enclosed disk are supplementary input data formatted to be directly used as input for the USGS MODFLOW groundwater flow model. The data includes the MODFLOW files, a .SHP file of the map information to orient the user and a short README.TXT file included by Dr. Kelson to explain the data on the disk.

Based on the conversations we had with the CEC, this should satisfy the request of the technical consultants hired to review our analysis.

Thank you.
