**Subject: Request for Confidential Designation**  
Traditional Use Areas at the Blythe Solar Power Project,  
Response to Data Requests 146 - 148  
Blythe Solar Power Project (09-AFC-6)

Dear Ms. Jones,

Solar Millennium LLC, as an owner of the Blythe Solar Power Project (BSPP) requests that the attached information be designated confidential pursuant to 20 CCR Section 2505. This information is being supplied to the California Energy Commission (CEC) as Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148.

In support of its application for confidentiality designation, Solar Millennium, LLC, provides the following information:

APPLICANT: Solar Millennium LLC  
ADDRESS: 1625 Shattuck Avenue, Suite 270  
Berkeley, CA 94709-1161

1(a). *Title, date and description (including number of pages) of the record for which you request confidential designation.*

One (1) original, four (4) copies and a compact disc, of Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148. We request that this document, in its entirety, is granted confidential designation.

1(b). *Specify the part(s) of the record for which you request confidential designation.*

The report identified above in 1(a), in its entirety:

- Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148.

2. *State and justify the length of time the Commission should keep the record confidential.*

Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148 should be kept confidential indefinitely to protect potential cultural and archaeological resources sites. If the descriptions of the locations of the sites are released to the public domain, there is a potential for looting of that site.

3(a). *State the provisions of the Public Records Act or other law that allows the Commission to keep the record confidential, and explain why the provision(s) apply to the record.*

Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148 specifically identify and describes areas of potential cultural and archaeological significance. It is thus protected under Government Code Sections 6254(e) and 6254(k). Protection provided is analogous to that given to Native American sacred places under Section 6254(r) of the Government Code.

3(b). *Discuss the public interest in nondisclosure of the record. If the record contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please also state how it would be lost, the value of the information to the applicant, and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.*

The public interest will be served by nondisclosure by preventing looting of the cultural and archaeological resources sites described in Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148. Such looting would preclude scientific study of the sites to gain data about the cultural and archeological resources of the area.

4. *State whether the record may be disclosed if it is aggregated with other information or masked to conceal certain portions (including but not limited to the identity of the applicant). State the degree of aggregation or masking required. If the data cannot be disclosed even if aggregated or masked, explain why.*

Solar Millennium LLC, believes the CEC staff will require the specific information contained in Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148 to properly perform its analysis. Aggregation of information would hinder a complete CEC analysis. However, Solar Millennium LLC, believes the CEC can incorporate a generalized summary of information contained in the Traditional Use Areas at the Blythe Solar Power Project, Responses to Data Requests 146 – 148 to properly state the basis for its analysis without disclosing information specific enough to facilitate looting.

5. *State how the record is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant. If it has, explain the circumstances under which disclosure occurred.*

Solar Millennium LLC, has not disclosed any of the subject information to anyone other than its employees, attorneys, and consultants working on the BSPP. Moreover, this information will not be disclosed to any other persons employed by or working for Solar Millennium LLC except on a “need to know” basis. Solar Millennium LLC, is marking this information “Confidential” and is instituting a policy that segregates this information from other BSPP files and that access to it be restricted to a designated confidential information manager or managers within Solar Millennium LLC or its attorneys/consultants.

I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct and complete to the best of my knowledge and I, attorney with the Law Firm of GalatiBlek, LLP, am authorized to make the application and certification on behalf of the applicant.

David Wiseman  
Counsel for Solar Millennium LLC
