RE: **Blythe Solar Power Project, Docket No. 09-AFC-6**
Support letters for the Blythe Solar Power Project – Second Set
Technical Areas: Project Description/Socioeconomics

Dear Mr. Solomon:

Attached please find the following second set of community support letters for the Blythe Solar Power Project.

If you have any questions on this submittal, please feel free to contact me directly.

Sincerely,

Alice Harron
Senior Director, Development

Energy Commission, State of California
1516 Ninth Street, Sacramento, CA

09-AFC-6

To whom it may concern,

Wind and Sun are two of the greatest resources Southern California has to offer and with a new push towards renewable energy, Blythe is the perfect place to lead the charge.

With 350 days of sunlight, it's no wonder why a company like Solar Millennium chose a site just outside of our city limits for a solar power project.

The project will bring jobs and reduce our dependency on foreign oil. I'm all for it and I hope you are as well.

Kindest Regards,

Jennifer Lambert
District Nurse, PVUSD
Felix J. Appleby P.T.O. secretary
Blythe resident 25 years.
Solar Enthusiast ☺

Dear Commissioners,

The jobless rate in Riverside County is one of the worst in the state and companies like Solar Millennium are proposing a project that would put hundreds to work over several years. The Blythe Solar Power Plant is exactly the kind of project we need to pull us out of this unemployment slump.

May's unemployment in Riverside County topped 14 percent according to the state's Employment Development Department. Projects such as the Blythe Solar Power Project outside of Blythe will not only help us create a new source of renewable energy, but an entirely new workforce.

Even after the hundreds of construction jobs are no longer needed, there will still be more than 220 workers needed for the Blythe Solar Power Project alone. Furthermore, more projects like this are being proposed that would create a whole new industry to put people back to work.

Companies such as Solar Millennium are already working with local college's that include College of the Desert and Palo Verde College to develop curriculum and train local residents to be ready to work in the plants once they're built.

We support this project and hope that the California Energy Commission joins us in our support so our county can reap the benefits of such an economically beneficial venture.

Regards,

Cherish Rivera

DECLARATION OF SERVICE

I, Carl Lindner, declare that on July 15, 2010, I served and filed copies of the attached:

Community Support Letters for the Blythe Solar Power Project – Second Set

The original document, filed with the Docket Unit, is accompanied by a copy of the most recent Proof of Service list, located on the web page for this project at:

[\[http://www.energy.ca.gov/sitingcases/solar_millennium_blythe\]](http://www.energy.ca.gov/sitingcases/solar_millennium_blythe).

The document has been sent to the other parties in this proceeding (as shown on the Proof of Service list) and to the Commission's Docket Unit, in the following manner:

(Check all that Apply)

For service to all other parties:

 X sent electronically to all email addresses on the Proof of Service list;

 by personal delivery or by overnight delivery service or depositing in the United States mail at Camarillo, California with postage or fees thereon fully prepaid and addressed as provided on the Proof of Service list above to those addresses **NOT** marked "email preferred."

AND

For filing with the Energy Commission:

 X sending an original paper copy and one electronic copy, mailed and emailed respectively, to the address below (preferred method);

OR

 depositing in the mail an original and 12 paper copies, along with 13 CDs, as follows:

CALIFORNIA ENERGY COMMISSION

Attn: Docket No. 09-AFC-6

1516 Ninth Street, MS-4

Sacramento, CA 95814-5512

docket@energy.state.ca.us

I declare under penalty of perjury that the foregoing is true and correct.

Carl E. Lindner
