Hi Dave,

Could you please check your sacred sites list for the Kokopelli and Cicimitl geoglyphs that Alfredo Acosta Figueroa has identified to BLM as subject to impacts from the Blythe Solar Power Project?

They are in Riverside County. I have attached a file which should open Google Earth and show the location of these features. You can zoom in and out, and the latitude and longitude are shown.

Thanks,

Beverly

Hi Beverly:

We do not have this or these projects in the NAHC Sacred Lands File. We had a similar request from BLM; Also, in our research on these sites, there is no record of them prior to 1994. We did send a Sacred Lands File Record Form to the Chemehuevi Tribe if there were other Native American cultural resources in that area.
