PROJECT TITLE: Genesis Solar Energy Project

<input checked="" type="checkbox"/> Telephone	(909) 945-3294	<input type="checkbox"/> Meeting Location:	
NAME:	Magdalena Rodriguez Environmental Scientist California Dept. of Fish & Game	DATE:	12-16-09
		TIME:	10:30 a.m.
WITH:	Susan Sanders, Biologist / Genesis Wildlife Agency Team lead		
SUBJECT:	Genesis Solar Energy Project – Incidental Take Permit, LSA Application		

We discussed the Genesis Data Responses submitted by the applicant on December 15th, in particular responses to questions # 56 (Incidental Take Permit) and #67 (revised delineations). Magdalena noted that they will be meeting with the applicant on Thursday (12/17/09) to discuss these issues, but also confirmed the following:

- **Incidental Take Permit:** There will be no Consistency Determination for this project. The applicant needs to submit an ITP application to CDFG (with a copy to Energy Commission) as soon as possible. This guidance comes from CDFG headquarters.
- **Revised Delineation/LSA Application:** The applicant needs to submit a revised delineation per the guidance provided in the background information on Data Request #67. This direction provided in that Data Request is entirely consistent with CDFG recommendations on how to delineate state waters in desert regions.

We both agreed that delays in submitting the revised delineation impedes our ability to analyze impacts and prepare our Staff Assessment, and therefore jeopardizes the schedule.
