Genesis Solar Energy Project - Docket Number 09-AFC-8

Docket Clerk:

Included with this letter are 9 CD-ROM disks which contain copies of the air modeling files used by the Genesis Solar Energy Project to conduct its Air Quality analysis. This electronic data compliments the information contained in Section 5.2 and Appendix B of the AFC. These CDs supplement the CDs that were sent on August 31st, 2009 due to an error in some of the disks that did not allow users to view all of the information. The original CDs should be retained because they also contain information on the human risk assessment.

All information contained on these CDs is believed to be accurate and true.

Sincerely,

Tricia Bernhardt
Project Manager/Tetra Tech EC

cc: Mike Monasmith /CEC Project Manager
