RE: Application for Certification

Dear Ms. Jones:

In accordance with the provisions of Title 20, California Code of Regulations article 3 (Section 1934 et seq), Pio Pico Energy Center, LLC (PPEC) is pleased to submit its Application for Certification for the Pio Pico Energy Center Project. Additionally, PPEC attests to the truth and accuracy of the information contained herein.

The PPEC will consist of three General Electric LMS100 combustion turbines that will operate in a simple-cycle mode and generate approximately 300 MW. The Project was short-listed and is in the process securing of a power sales agreement with SDG&E. The Project will provide peaking and shoulder electrical energy and capacity. The site has access to existing electric transmission and natural gas lines.

The construction and operation of the PPEC facility will be in compliance with all applicable laws, ordinances, regulations and standards. Any potentially significant environmental impacts will be mitigated.

We are looking forward to working with you and your staff to make this a successful project for all. If you have any questions or concerns please call Mr. David Jenkins, Project Manager, at 317-431-1004.

Sincerely,

Gary R. Chandler  
President
