Docket Number:	18-HYD-01
Project Title:	Executive Order B-48-18 Workshops
TN #:	223517
Document Title:	Hydrogenics USA Comments On Executive Order B-48-18 Workshops
Description:	N/A
Filer:	System
Organization:	Hydrogenics USA
Submitter Role:	Public
Submission Date:	5/21/2018 4:31:32 PM
Docketed Date:	5/21/2018

Comment Received From: Hydrogenics USA
Submitted On: 5/21/2018
Docket Number: 18-HYD-01

On Executive Order B-48-18 Workshops

Additional submitted attachment is included below.

To: The Honorable Commissioner Janea Scott
California Energy Commission
1516 Ninth Street
Sacramento, California 95814-5512

May 21, 2018

Subject: Response to Docket No. 18-HYD-01 and Executive Order B-48-18 Workshops

Dear Commissioner Scott,

Thank you for the Staff Workshop on Executive Order B-48-18 (“ZEV Executive Order”).

I agree that light duty stations are important assets and infrastructure to continue the momentum of mass adoption of fuel cell vehicles in California, and therefore mass installation of heavy duty renewable hydrogen fuel generation plants in scale are needed to meet the demands of existing and future light duty stations and also of the future heavy duty stations. Once the fueling shortage issue in the light duty stations is removed with onsite and/or remote renewable hydrogen generation plants using electrolysis technology, the positive public experience in light duty stations will cascade to the heavy duty hydrogen vehicle applications.

Your continued support in funding heavy duty renewable hydrogen generation plants to support light duty and heavy duty infrastructure will be greatly appreciated by the hydrogen industry.

Sincerely,

Rob Del Core
Director, Fuel Cell Power Systems and Hydrogen Fuel Infrastructure
Hydrogenics USA
