Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

phil rockey

Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Cindy Meyers

Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

Please deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future and its commitment to expanding environmental justice.

I am thankful the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and they deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

B Pavey

Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Betsy Eppinger

Subject: Reject NRGs Power Plant in Oxnard

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Mark Bartleman

Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Kim Rosenthal
1101 Bailard Ave B

Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

James Ronan

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Maryann LaNew

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Barbara Danese
3026A Lewis St
Placerville CA, 95667-5601

Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

melanie fisher
3633 calle jazmin
calabasas CA, 91302-3073

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puene at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Marianne Goodkin
584 Castro St # 773

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Kristin AND Mark Sullivan

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Carol Vesecky

I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Because this is the right thing to do!!!

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Steven Nipper

Subject: Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

William Mitchell
