## Energy - Quarantine

---

**From:** dlit=comcast.net@mg.gospringboard.io on behalf of David Holloway  
<dlit@comcast.net>  
**Sent:** Tuesday, May 29, 2018 9:28 PM  
**To:** Scott, Janea@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Scott,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

David Holloway  
6314 Mallard Ct  
Rocklin CA, 95765-5903

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Lawrence Joe  
1056 Walnut Grove Ave., Apt. G  
Rosemead CA, 91770-5702

**Sent:** Tuesday, May 29, 2018 5:00 PM  
**To:** Hochschild, David@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Hochschild,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

mark golebiewski

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

Enough is enough!

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Katharine Flebotte

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Moira Birss

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Randy Buck

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Hochschild,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Janet Lee Beatty  
1600 Toro St Apt 5C  
San Luis Obispo CA, 93401-3702

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Martinez-Guidos Rosa  
2601 Merritt Ave  
San Pablo CA, 94806-2937

**Sent:** Tuesday, May 29, 2018 7:23 AM  
**To:** Scott, Janea@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Scott,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

shane hunner  
276 Santa Clara Ave  
Redwood City CA, 94061-3442

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Teresa Tarin  
11225 Emelita St.

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Cynthia Marconi  
214 Eugene Ave  
Mount Shasta CA, 96067-2621

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Diane Sands  
460 W Montecito Ave

**From:** robin=robingerber.com@mg.gospringboard.io on behalf of robin gerber  
<robin@robingerber.com>  
**Sent:** Monday, May 28, 2018 7:10 PM  
**To:** Douglas, Karen@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear Douglas,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

robin gerber

The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Nadine Lauru
