**From:** thefishermansgranddaughter=netzero.net@mg.gospringboard.io on behalf of Sherrie Lee <thefishermansgranddaughter@netzero.net>  
**Sent:** Monday, May 28, 2018 5:11 PM  
**To:** McAllister, Andrew@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Sherrie Lee  
P.O. Box 824 Crawford Road  
Covelo CA, 95428-0824

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Kate Wolf  
5031 Meridian St  
Los Angeles CA, 90042-1733

**Sent:** Monday, May 28, 2018 5:47 AM  
**To:** McAllister, Andrew@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Carol Hyndman  
14740 Orzalli rd  
Grass Valley CA, 95945-9014

I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

John Derdivanis

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Neal Biggart  
1894 Dehesa Rd  
El Cajon CA, 92019-2635

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Myra Schegloff  
1258 1/2 Devon Ave  
Los Angeles CA, 90024-5344

**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Jon Bazinet  
256 Honeydew Drive  
Vallejo CA, 94591-7259

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Sukey Barnhart  
43 Eucalyptus Path  
Berkeley CA, 94705-1522

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison and the Clean Power Alliance of Southern California (the Community Choice Energy JPA that 6 Ventura cities and the County of Ventura joined) are pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

**To:** McAllister, Andrew@Energy  
**Subject:** Reject NRGs Power Plant in Oxnard!

Dear McAllister,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Alethea Mackinnon  
40104 Alerna Way  
Oakhurst CA, 93644-9513

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

Rosann Lynch  
872 Laine Street  
Monterey CA, 93940-1133
