## Notice of Webinar for CALeVIP Equipment Requirements

Staff from the California Energy Commission and the Center for Sustainable Energy will conduct a public webinar to discuss equipment and site requirements for electric vehicle (EV) charging infrastructure installed under the California Electric Vehicle Incentive Project (CALeVIP). The Energy Commission is seeking input from stakeholders on the proposed requirements for future CALeVIP incentive projects. Topics will include Energy Star Certification, ISO15118, and other features for Level 2 chargers, DC fast chargers, and mobile chargers. The webinar will be held on:

**June 26, 2018**  
9:00 a.m.–11:00 a.m.

Remote Access Available by Computer or Phone via WebEx™  
(Instructions below)

### Background

Assembly Bill 118 (Núñez, Chapter 750, Statutes of 2007), created the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). The statute authorizes the Energy Commission to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change policies. AB 8 (Perea, Chapter 401, Statutes of 2013) reauthorized the ARFVTP through January 1, 2024.

As of April 2018, the Energy Commission has invested nearly \$79.9 million through the ARFVTP for almost 8,700 charging connectors at public and private sites in California. To provide more focused plug-in electric vehicle (PEV) infrastructure projects that will target more specific projects and gaps in charging availability, the Energy Commission issued Grant Funding Opportunity (GFO)-16-603 to seek a block grant recipient to design and implement up to \$200 million in grant funds through various PEV charger incentive projects throughout California. The Center for Sustainable Energy (CSE) was approved as the grant agreement recipient at the Energy Commission's April 2017 business meeting.

Energy Commission staff worked with CSE to develop the Fresno County Incentive Project as the first incentive project under CALeVIP. This first project provides charging infrastructure for a solid foundation to support vehicle growth through 2025 in Fresno County. Energy Commission staff, in conjunction with CSE, are developing future CALeVIP funding projects in multiple locations.

## Public Comment

**Oral Comments:** Staff will accept oral comments during the workshop. Comments may be limited to three minutes per speaker. Comments may become part of the public record in this proceeding.

**Written Comments:** Written comments should be submitted to the Dockets Unit by **5:00 p.m. on July 3, 2018**. Written comments will be also accepted at the workshop. However, the Energy Commission may not have time to review them before the conclusion of the workshop.

Please note that your written and oral comments, attachments, and associated contact information (e.g., your address, phone number, and email address) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

Please submit comments to the Energy Commission using the e-commenting at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=17-EVI-01>.

Please enter your contact information, any organization name, and a comment title describing the subject of your comments. You may include comments in the box titled "Comment Text" or attach a file in a downloadable, **searchable format** in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf). Maximum file size is 10 MB.

Written comments may also be submitted by emailing them (include the docket number 17-EVI-01 and Block Grant for Electric Vehicle Charger Incentive Projects in the subject line) to the Docket Unit at:
