NO New Gas Plant in Huntington Beach

Dear CEC,

We don't need a dirty, fossil fuel plant in Huntington Beach. My friend lives there and has two kids that will be teenagers soon. they don't need to breathe air any more polluted than it already is.

There is a lot of baseline electricity available, and studies show conservation and renewables can provide for more as is needed in the future. This plant is NOT needed, and NOT wanted.

The CEC must evaluate better options after all the unwanted and unneeded impacts this plant will have are considered.

NO new gas plant in Huntington Beach.
