## Dearbaugh, April@Energy

---

**Subject:** FW: City of Huntington Beach Comments on HBEP PMPD  
**Attachments:** HBEP COCs Fire Planning Comments 091514.docx

Felicia,

Thank you for the opportunity to comment on the HBEP PMPD.

The Public Works Department offers the following comments:

1. Page 6.2-12 – The second column of Table 3, “Volume/Capacity (v/c)”, the volume to capacity ratio for each corresponding level of service is incorrect.
2. Page 6.2-13,14,15 – The methodology used by the city for level of service calculations is ICU (intersection capacity utilization), not HCM methodology (seconds of delay). HCM was the only methodology used for determining the level of service in the Traffic and Transportation section of the document.

Additional comments are provided the attached red-lined comments on the proposed Conditions of Certification. Thank you.
