Importance: High

Good afternoon, Mark and DAWG Team,

Please find attached **SCE's responses to the CEC's survey for EV Forecasting**. SCE has also included **additional comments** on the survey (also in the attached document).

Note that **SCE has not** filled out the online survey with the attached responses (the responses are screenshots of SCE's proposed responses). Please advise whether we should also note these responses on the online survey, in addition to providing our responses via this email.

We are happy to answer any questions and / or explain our responses and comments in more depth, as needed.

Many thanks for the opportunity to comment!
