Subject: Reject NRGs Power Plant in Oxnard!

Dear Scott,

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant in Oxnard.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's application.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve a final decision from the Commission.

Please deny NRG's request for an extension, issue a final decision, and give closure to the residents of Oxnard!

Sincerely,

eric melendez
