Subject: First Solar's Topaz Solar Farm Revised Project Footprint

On May 27th I received First Solar's Revised Project Footprint, as you can see First Solar completely blocks the Wildlife Corridor to the north. First Solar plans on completely surrounding local residents and also almost completely surrounding the Carrizo Energy site. First Solar has not supplied their current noise, water and traffic assessments and are currently using OptiSolar's obsolete information. All these issues directly affect the Carrizo Energy Project. I am requesting that the CEC acquire all current and up to date info on First Solar from San Luis Obispo County and or First Solar so cumulative issues can be addressed. I am also requesting that SC Wildlands include First Solar's revised footprint into their Corridor Model. We find it an extreme lack of good faith that First Solar has not readily provided accurate information for the Corridor Model.

Thank you,
Michael Strobridge
