REQUEST FOR AGENCY COMMENTS ON THE FINAL STAFF ASSESSMENT FOR THE PROPOSED CANYON POWER PLANT (07-AFC-9)

This notice is to inform you of the availability of the Final Staff Assessment (FSA) for the Canyon Power Plant (CPP) Application for Certification (07-AFC-9). The FSA was published on October 8, 2009. The FSA contains the California Energy Commission staff's final engineering, public health, and environmental evaluation of the proposed CPP.

The FSA contains the California Energy Commission staff's final environmental and engineering evaluation of the CPP and will serve as staff's testimony during evidentiary hearings. The Energy Commission Committee assigned to the CPP proceedings will consider and weigh the testimony or comments or recommendations of all interested parties, including Energy Commission staff, the applicant, intervenors, public, and other local, state, and federal agencies, before issuing the Presiding Member's Proposed Decision (PMPD) for consideration by the full Energy Commission. The public, intervenors, local, state and federal agencies are encouraged to participate in these hearings. The Energy Commission will issue notices at least ten days prior to any scheduled hearings.

Energy Commission Licensing Authority

The Energy Commission is responsible for reviewing and ultimately approving or denying all applications for construction and operation of thermal electric power plants, 50 MW and greater, proposed for construction in California. The Energy Commission's facility certification process carefully examines public health and safety, environmental impacts and engineering aspects of proposed power plants, and all related facilities such as electric transmission lines and natural gas and water pipelines. The Energy Commission is the lead agency under the California Environmental Quality Act (CEQA), and because the regulatory program has been certified by the Natural Resources Agency pursuant to Public Resources Code section 21080.5, produces several environmental and decision documents rather than an Environmental Impact Report.

Summary of the California Energy Commission Staff's Conclusions

Energy Commission staff concludes that with implementation of staff's recommended mitigation measures described in the conditions of certification, the CPP would comply with all applicable laws, ordinances, regulations, and standards (LORS), and that significant adverse direct, indirect, and cumulative impacts will not occur. For a more detailed review of potentially significant impacts and the related mitigation measures, please refer to each chapter of the FSA.

AGENCY PARTICIPATION

The California Energy Commission encourages public agency participation in the review of the CPP Application for Certification and staff's FSA. We request that you review the enclosed FSA for the areas for which your agency would normally be responsible except for the Energy Commission's in lieu permitting authority. Written comments on the FSA should be provided to Eric Solorio, Siting Project Manager, **no later than 5:00 p.m., November 8, 2009** at the address on this letterhead or by email to esolorio@energy.state.ca.us. Technical or project schedule questions should also be directed to Eric Solorio at (916) 651-0966 or by email.

Sincerely,
