In the Matter of:

The Application for Certification for the
San Joaquin Solar Units 1 and 2
Licensing Project

Docket No. 08-AFC-12

**PETITION TO INTERVENE BY
CALIFORNIA UNIONS FOR RELIABLE ENERGY**

Pursuant to sections 1207 and 1712 of Title 20 of the California Code of Regulations, California Unions for Reliable Energy (“CURE”) petitions to intervene in this proceeding.

Section 1207(a) grants “any person” the right to file a petition to intervene which sets forth “the grounds for the intervention, the position and interest of the petitioner in the proceeding, the extent to which the petitioner desires to participate in the proceedings, and the name, address, and telephone number of the petitioner.” Section 1207(c) provides that the “presiding member may grant leave to intervene to any petitioner to the extent he deems reasonable and relevant”

CURE is a coalition of unions whose members help solve California’s energy problems by building, maintaining, and operating conventional and

renewable energy power plants. The San Joaquin Solar 1 and 2 Hybrid Project proposes the construction, maintenance, and operation of two hybrid design solar thermal electric generating plants in Fresno County. Thus, the project directly affects the union members' immediate economic interests.

CURE is equally committed to building both a strong economy and a healthy environment. Poorly designed renewable energy power plants may degrade the environment with noise and visual intrusion, greenhouse gas emissions, water and soil pollution, and destruction of archaeological or wildlife habitat sites. Environmental degradation jeopardizes future jobs by causing construction moratoriums, depleting limited air pollutant emissions offsets, using limited fresh water, and putting added stresses on the environmental carrying capacity of the state. This reduces future employment opportunities. In contrast, well designed projects that reduce environmental impacts of electricity generation improve long-term economic prospects.

CURE has an interest in the economic and environmental impacts of the San Joaquin Solar 1 and 2 Hybrid Project. Union members are concerned about projects that cause serious environmental hardship without providing countervailing economic benefits. The Commission's application process provides for a balancing of the Project's socio-economic and environmental impacts. CURE's ultimate position in this proceeding will be determined based on all of the factors that will be considered by the Commission.

CURE has been granted intervention in most other siting cases brought before the Commission since the enactment of AB 1890. The Commission rejected the only challenge to CURE's participation in those cases finding CURE's interests "undeniably relevant" to the proceedings. (In the Matter of Application for Certification for the High Desert Power Project, Docket No. 97-AFC-1, Order Granting Petition to Intervene at 2 (Dec. 24, 1997).) The same decision should be reached here.

CURE wishes to participate fully in all phases of this proceeding. Filings should be served on CURE at the address listed below.

For the foregoing reasons, CURE respectfully requests that the Commission grant its petition to intervene in this proceeding, and allow CURE to participate as a party.

Dated: April 2, 2009

Respectfully submitted,

_____/s/_____

DECLARATION OF SERVICE

I, Bonnie Heeley, declare that on April 2, 2009, I served and filed copies of the attached PETITION TO INTERVENE BY CALIFORNIA UNIONS FOR RELIABLE ENERGY. The original document, filed with the Docket Unit, is accompanied by a copy of the most recent Proof of Service list, located on the web page for this project at <http://www.energy.ca.gov/sitingcases/sjsolar/indes.html>. The document has been sent (1) electronically, and (2) via US Mail by depositing in the US Mail at South San Francisco, CA, with first-class postage thereon full prepaid and addressed as provided on the attached Proof of Service list to those addresses NOT marked "email preferred." It was sent for filing to the Energy Commission by sending an original paper copy and one electronic copy, mailed and emailed respectively, to the address shown on the attached Proof of Service list.

I declare under penalty of perjury that the foregoing is true and correct. Executed at South San Francisco, California, on April 2, 2009.
