Re: Notice of Receipt of Complete Application
Project Number: C-1090203

Dear Mr. Larsen:

The San Joaquin Valley Air Pollution Control District (District) has received your Authority to Construct application for two each 53.4 MW biomass plants with each hybrid design solar design thermal electric generating plants comprising a solar field, at West Jayne Ave, Coalinga. Based on our preliminary review, the application appears to be complete.

This means that your application contains sufficient information to proceed with our analysis. However, during processing of your application, the District may request additional information to clarify, correct, or otherwise supplement, the information on file.

We will begin processing your application as soon as possible. In general, complete applications are processed on a first-come first-served basis. However, you have presented a compelling claim of significant economic hardship and a request for expedited after-hours processing and we will therefore be processing your application out-of-turn, as expeditiously as possible.

It is estimated that the project analysis process will take 162.6 hours, and you will be charged at the weighted hourly labor rate for after-hours processing in accordance with District Rule 3010. This estimate includes the following major processing steps: Determining Completeness (12.6 hours), Engineering Evaluation (65 hours), BACT Analysis (35 hours), Health Risk Assessment (20 hours), CEQA Analysis (10 hours) and Permit Preparation (20 hours). The current weighted labor rate for after-hours processing is \$132.00 per hour, but please note that this fee is revised annually to reflect actual costs and therefore may change. No payment is due at this time; an invoice will be sent to you upon completion of this project.

Seyed Sadredin

Executive Director/Air Pollution Control Officer

Please note that this letter is not a permit and does not authorize you to proceed with your project. Final approval, if appropriate, will be in the form of an Authority to Construct permit after application processing is complete.

If you have any questions, please contact Mr. Jim Swaney at (559) 230-5900.

Sincerely,

David Warner
Director of Permit Services
