NAME:	Tawanda Mtunga	DATE 11/24/09	TIME: 2:15 p.m.
WITH:	Fresno County Planning Department		
SUBJECT:	Williamson Act cancellation process		

COMMENTS: In a phone conversation about the California Department of Conservation letter regarding the Williamson Act Contract No. 3219, Mr. Mtunga said he had received the letter but had only read a portion of it to date. He anticipates that the Fresno County Agricultural Land Conservation Committee Staff Report-Agenda Item No. 2 will be placed on the Board of Supervisors agenda within sixty days. The Staff Report recommends that the 468.8-acre parcel of non-prime farmland be removed from Contract restrictions to allow the construction of a solar hybrid plant. He expects that County staff will review the Preliminary Staff Assessment and offer comments as appropriate and also noted that the County would not require a conditional use permit or site plan review.
