<b>SUBJECT:</b>	Other projects near the San Joaquin site		

COMMENTS: In response to a phone conversation about additional development projects in the San Joaquin site area, Mr. Tani sent an e-mail noting that "if a person had a development proposal they would first start at our front counter. The first step would be a pre-application which usually takes a couple of weeks to process. The applicant would receive a package that included a listing of application(s), the filing requirements, and filing fees for a specific project at a specific site. We have no other projects in our system that I am aware of in your project vicinity. We only track applications submitted. We do not have any listing of foreseeable projects."
