Data Response Workshop: Purpose

The purpose of the workshop is to allow staff, the applicant and intervenors to work toward resolving technical issues related to the Huntington Beach Energy Project (HBEP) amendment, filed on September 9, 2015. Technical areas that will be discussed include Air Quality, Cultural Resources, Socioeconomics, Transmission System Engineering and Visual Resources. Other topics may be discussed as needed.

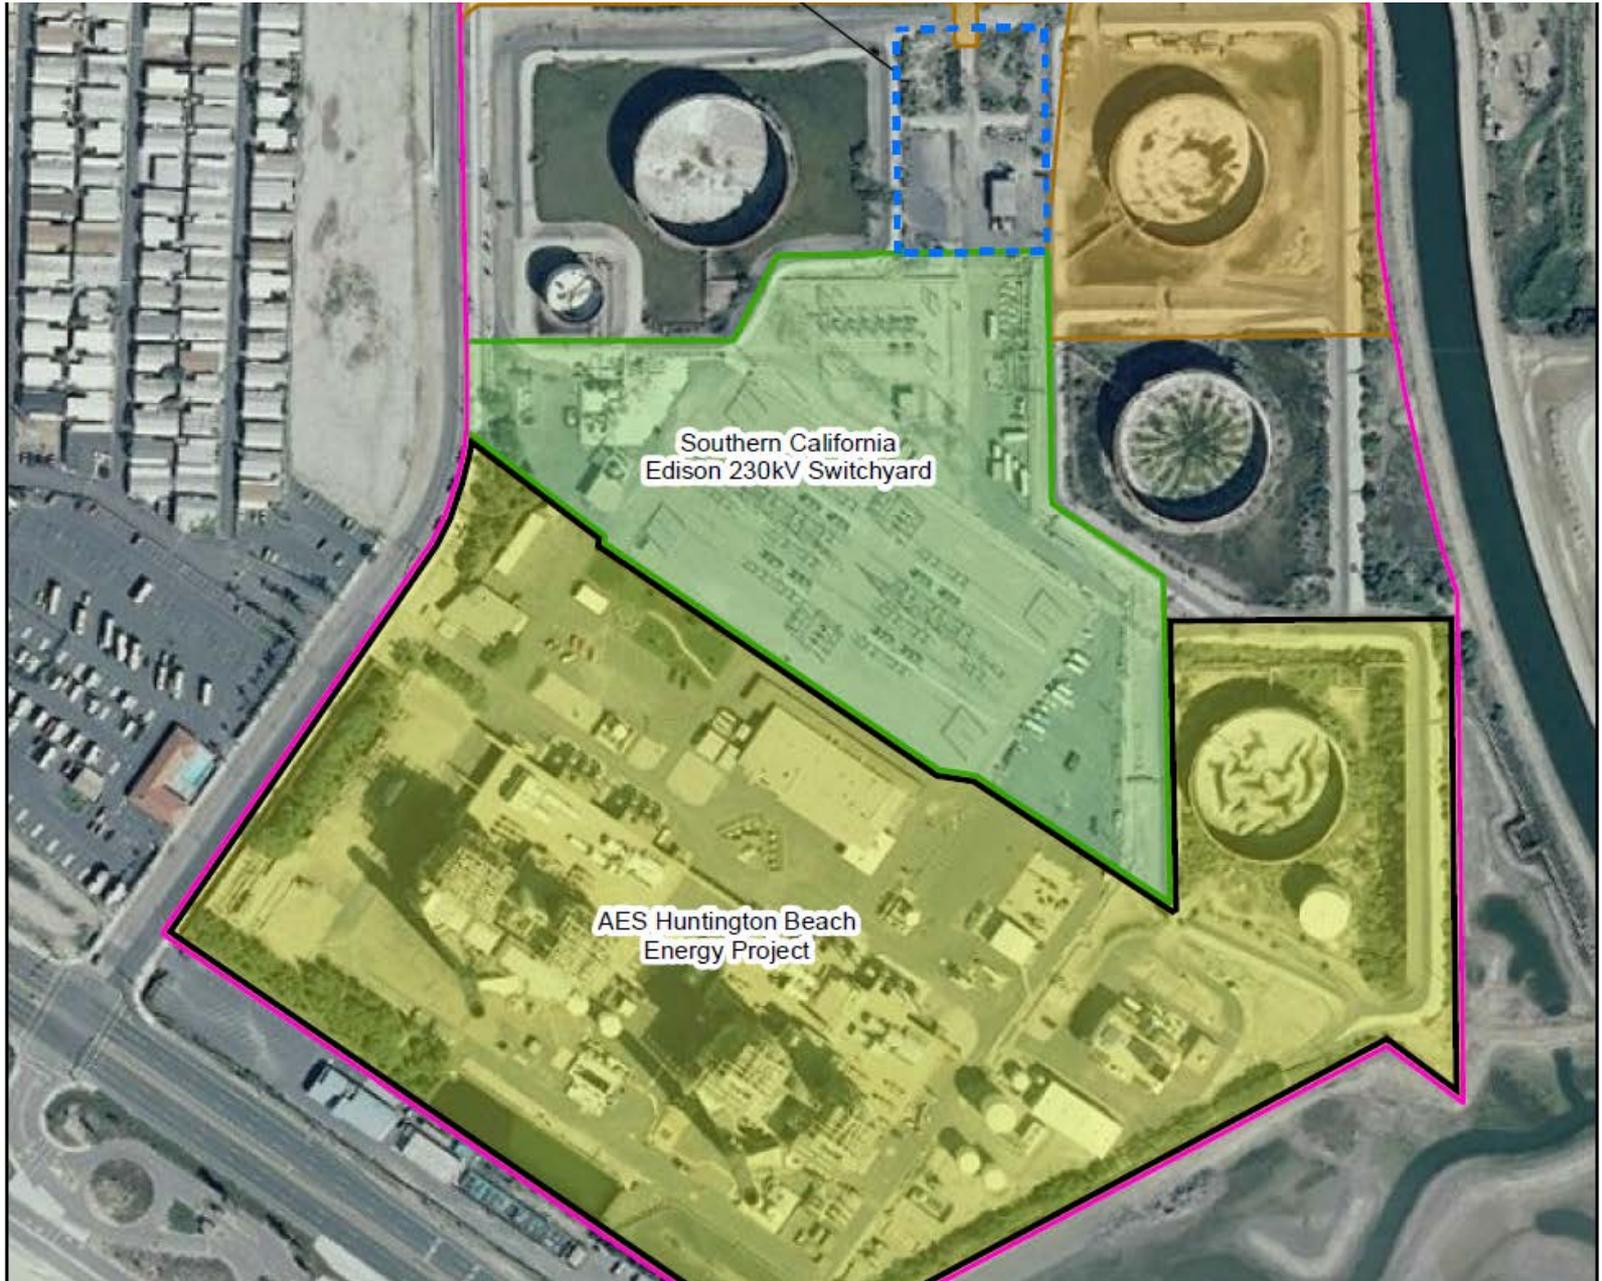

The workshop will also provide an opportunity for interested agencies, members of the public and other parties interested in the proposed project to present comments.

Note, that the applicant has filled objections to the data requests as well as reserve the right to supplement the data responses on or before December 14th after the December 8, 2015 Data Response workshop. Energy Commission staff, intervenors and others will be requested to focus on the data responses received to date, request clarification and indicate additional data information needs.
