STATE OF CALIFORNIA

STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION

IN THE MATTER OF: STANTON ENERGY RELIABILITY CENTER

Docket No. 16-AFC-01

ENERGY COMMISSION STAFF’S RESPONSE TO THE COMMITTEE ORDER FOR RESUBMISSION OF MAPS TO CONFORM TO EVIDENCE

After the Pre-Hearing Conference, the Committee assigned to the Stanton Energy Reliability Center (Stanton) reopened the record for the limited purpose of receiving corrected maps into evidence. Energy Commission staff have updated the maps to support evidence already received into the record, including updated labels, corrections to map legends, and the removal of the southern gas line alternative. The following maps have been corrected and are provided herein:

1. Exhibit 300, page 3-14 (Project Description – Figure 1)
2. Exhibit 300, page 3-16 (Project Description – Figure 3)
3. Exhibit 300, page 4.4-27 (Environmental Justice – Figure 1)
4. Exhibit 300, page 4.4-28 (Environmental Justice – Figure 2)
5. Exhibit 300, page 4.7-29 (Noise and Vibration – Figure 1)
6. Exhibit 300, page 4.11-48 (Traffic and Transportation – Figure 2)

This updated analysis does not change staff’s conclusions that Stanton would not result in any significant adverse environmental impacts and would not result in any nonconformance with applicable laws, ordinances, regulations, or standards.

DATED: September 18, 2018

Respectfully submitted,

Stanton Energy Reliability Center (16-AFC-01) Resubmission of Maps to Conform to Evidence

Exhibit 300, Page 3-14 (Project Description – Figure 1)
DECLARATION OF

John Heiser

I, John Heiser declare as follows:

I am presently employed by the California Energy Commission in the Siting, Transmission and Environmental Protection (STEP) Division, Environmental Protection Office as a Planner III.

A copy of my professional qualifications and experience was received into evidence in Exhibit 300 and is incorporated by reference herein.

I supervised the preparation of Staff's Response to the Committee Order for Resubmission of Maps to Conform to Evidence based on the Application For Certification and supplements thereto, data from reliable documents and sources, and my professional experience and knowledge.

It is my testimony and professional opinion that these corrected maps accurately reflect the state of the evidence and conform to the Stanton Energy Reliability Center as proposed by applicant and as analyzed by staff and are accurate with respect to the issue(s) addressed therein.

I am personally familiar with the facts and conclusions related in the testimony and if called as a witness could testify competently thereto.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.
