**PROJECT TITLE: Huntington Beach Energy
 Project – Petition to Amend**

Docket:

TECHNICAL AREA(S): CCC Sea level rise and Tsunami concerns regarding HBEP

Telephone Email Meeting Location:

NAME: John Heiser **DATE:** 03/11/2016 **TIME:** 9:10 am

WITH: Tom Luster, California Coastal Commission

SUBJECT: Information for AES Huntington Beach – Petition to Amend

COMMENTS:

Tom Luster of the California Coastal Commission sent an email to John Heiser, California Energy Commission Project Manager on 03/11/2016 to provide information on the Poseidon Desalination Plant and Huntington Beach Energy Project Petition to Amend, related to water intake/discharge lines to the desalination plant and concerns about sea level rise, flooding and tsunami inundation.

Mr. Luster provided attachments and web site links. The three attachments were a technical memorandum prepared by Tetra Tech on “Updated Sea Level Rise inundation and Tsunami Flood Hazards” (TN#: 210679); Revised site plans of the Poseidon Desalination Plant – drawings from Tetra Tech (TN#: 210680), and a Power Point presentation slide prepared by USGS on the “Total water level contributions to a future 100 year storm event near Huntington Beach, as estimated by the CoSmoS model (TN#: 210681).

The initial website link provided in the email (TN#: 210678) was an incorrect site to the USGS modeling presentation on “Climate Change Impacts to the Southern California Coast” in which Mr. Luster provided the corrected link at (TN#: 210714)
