Subject: PETITION FOR INSIGNIFICANT PROJECT CHANGE TO PLANT FACILITY (Additional Grating-type Decking at Steam Turbine Structure)

Dear Mr. Marxen,

In response to your letter dated July 23, 2014 requesting additional information as indicated in the attached Data Request on Cultural Resources, we submit the following: The proposed project change will not require excavation or any ground disturbing activity. The proposed additional deck will be supported by the existing structural steel framework that currently supports the steam turbine deck. Also, the relocation of area lighting and associated electrical power supply conduit runs will be done above ground at the elevation of the existing turbine deck.

We hope that this additional information helps. If you have any questions regarding this matter, please contact Angel Espiritu at (925) 522-7838.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Benjamin E. Stanley'.

Benjamin E. Stanley
Senior Plant Manager
