NOTICE OF RECEIPT
PETITION FOR MODIFICATION OF THE CALIFORNIA ENERGY COMMISSION
DECISION FOR THE
KING CITY COGENERATION (85-AFC-05C)

On December 21, 2018, Calpine King City CoGen, LLC., filed a petition to amend (PTA) the California Energy Commission's (Energy Commission) Decision for the King City Cogeneration (formerly known as Basic American Foods' American 1 Cogeneration Project). The King City Cogeneration is a 130-megawatt facility that was certified by the Energy Commission in June 1987 and began commercial operation in 1989. The facility is located in the King City in Monterey County, California.

DESCRIPTION OF PROPOSED MODIFICATION

The PTA is proposing to remove the Condition of Certification No. 1 for the Engineering Analysis for King City Cogeneration facility. The PTA request is based on the Senate Bill 110 (Stats. 1999, ch. 581), which eliminated the requirement that the Energy Commission perform an Integrated Assessment of Need. Because this condition of certification is no longer applicable or necessary to ensure King City Cogeneration's compliance with laws, ordinances, regulations, and standards (LORS), the petition for modification requests removal of this outdated condition.
