2018 IEPR update

I support the California Energy Commission (CEC) Final 2018 Integrated Energy Policy Report (IEPR) Update, which has a strong focus on the electrification of buildings, and agree that electrification is the most viable path to zero-emission buildings.

I urge the Commission to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

The Final 2018 IEPR Update is fine as it is and no changes need to be made to the report. Thank you.

Sincerely,
Reetta Raag
