Intergrated Energy Policy

2018 IEPR Update

I commend the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update.

I am happy to see the strong focus on the electrification of buildings, and agree that electrification is the most viable path to zero-emission buildings. And incidentally, the Sun is the optimum resource for that electrification.

I strongly urge the Commission to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

In sum, I am very pleased with the Final 2018 IEPR Update and request that no changes be made to the report. Thank you.

Sincerely,

Dana Moran
