## **Electricity prices**

Iâ€™m all for fazing out petroleum products. However, I just moved into an all electric home. My first electric bill was 500.00 for 2 weeks. This is unexceptable. If you expect to ween people off of petroleum products, Then the existing tiered system that is currently in place, need to be done away with. It is wrong. I have a small granddaughter living with me, are we supposed to freeze. We make to much money to get assistance, but with these kind of electric bills, I will have no money for anything. No trips, no little extras, this is crazy, and unexceptable.
