2018 IEPR Update

The California Energy Commission (CEC)'s Final 2018 Integrated Energy Policy Report (IEPR) Update is commendable, particularly in its strong focus on the electrification of buildings. Building electrification is the most viable path to zero-emission buildings.

CEC should continue to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

I request that no changes be made to the report. Thank you.

Sincerely,
Matthew Reid
