## **2018 IEPR Update citizen approval**

I agree with the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update.

I believe that the strong focus on the electrification of buildings, and agree that electrification is the most viable path to zero-emission buildings.

I urge the Commission to pursue the electrification goals in the IEPR, and to accelerate the electrification market while at the same time prioritizing California's most vulnerable and disadvantaged communities.

I strongly request that no changes be made to the report. Thank you.

Florie Gilbard
