# PETITION TO CONDUCT POWER PLANT HEARINGS IN HUNTINGTON BEACH

To: The California Energy Commission (CEC). Regarding proceedings regarding a new power plant planned to be constructed called the Huntington Beach Energy Center. The CEC should provide notice to the community of the pollution, cancer risks Greenhouse gas emissions and other risks involved with the project and conduct any hearings in the community.

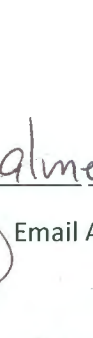

The CEC recognizes that the fossil fuel burning project would emit 1.78 million tons of Greenhouse gas per year (that's THREE BILLION FIVE HUNDRED AND SIXTY MILLION POUNDS per year) and spew other toxic poisons in the community. It will serve to prevent development of clean energy resources It may also adversely affect biological resources on the coast. Calironia is ready for clean energy projects, the CEC should not be perpetuating a legacy of new polluting facilities when superior options are avaiable.
