## **2018 IEPR Update**

We have resided in an all-electric home since 1983 and supported it with on-grid photovoltaic energy since 1993. We have an electric car and an electric heating system. This is the future if we are going to combat climate change. Hence, we concur with the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update.

We recognize that the electrification goals in the IEPR should be pursued in a manner that prioritizes California's most vulnerable and disadvantaged communities, keeping in mind the latest UN Report that shows we have no time to waste..

Please do not make changes to the Final 2018 IEPR Update Thank you.

Sincerely,  
Jonathan and Susan Wittwer
