## **2018 IEPR Update**

I am very pleased with California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update. The strong emphasis on the electrification of buildings is commendable, and I agree that electrification is the most viable path to zero-emission buildings. I urge the Commission to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

Again, I am most pleased with the Final 2018 IEPR Update and request that no changes be made to the report.
