2018 IEPR Update

I commend the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update because of the strong focus on the electrification of buildings.

I urge the Commission to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities. That would include public education to explain why we need to make our buildings emissions-free. It would help if the Gas Company's campaign against electrification would cease. It is triggering very unhelpful fear and animosity towards government leadership to address climate change.

In sum, I am very pleased with the Final 2018 IEPR Update and request that no changes be made to the report. Thank you.

Sincerely,
(your name)"
