2018 IEPR Update

I Commend the California Energy Commission on it Final 2018 Integrated Energy Policy Report Update.

I am very happy to see the strong emphasis on electrification as the most workable path to zero-emission buildings for California.

I would like to urge the Commission to pursue these goals in the IEPR in a manner which efficiently accelerates the electrification market while prioritizing the state's most disadvantaged communities.

I am very pleased with the Final 2018 IEPR Update and request that no changes be made.

Sincerely,
Laurel Harris
