2018 IEPR Update

I commend the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update. I am very pleased with the Final 2018 IEPR Update and request that no changes be made to the report.

I agree with the strong focus on the electrification of buildings, and agree that electrification is the most viable path to zero-emission buildings. I urge the Commission to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities. This is so important for California and its citizens.

Thank you.
Sincerely,
Cherie Ross
