2018 IEPR Update

I'm writing in support of the California Energy Commission's Final 2018 Integrated Energy Policy Report (IEPR) Update.

I think electrification is the most viable path to zero-emission buildings and I agree with the focus on the electrification of buildings.

I urge the Commission to pursue the electrification goals in the IEPR in a manner that accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

I urge you to approve the Final 2018 IEPR Update as written, and request that no changes be made to the report.

Thank you,

Connie Young
