2018 IEPR Update

As a lifelong Californian deeply concerned about the health and well-being of my community and the broader state, I commend the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update.

I strongly agree with the CEC's strong focus on the electrification of buildings, and agree that electrification is the most viable path to zero-emission buildings.

I also urge the Commission to pursue the electrification goals in the IEPR in a manner that will accelerate the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

In sum, I am very pleased with the Final 2018 IEPR Update and request that no changes be made to the report.

Thank you for your time and consideration,
