## **2018 IEPR Update**

Thank you for the 2018 Integrated Energy Policy Report (IEPR) Update.

I am happy to see the strong focus on the electrification of buildings. It is the only viable path to zero-emission buildings within the time frame required.

I urge the Commission to pursue the electrification goals in the IEPR to accelerate the electrification market's development. The Commission holds the keys to making electrification the easy, default choice for Californians, especially, in our most vulnerable and disadvantaged communities.

In sum, I am very pleased with the Final 2018 IEPR Update and request that no changes be made to the report.

Thank you.

Sincerely,

Bret Andersen
