Subject: Keep the Energy Commission on Track for Advancing Electrification -- 2018 Integrated Energy Policy Report Update (Docket #: 18-IEPR-01)

To California Energy Commissioners:

I commend the California Energy Commission (CEC) on its Final 2018 Integrated Energy Policy Report (IEPR) Update. I am happy to see the strong focus on the electrification of buildings, and agree that electrification is the most viable path to zero-emission buildings. I urge the Commission to pursue the electrification goals in the IEPR in a manner that expediently accelerates the electrification market while prioritizing California's most vulnerable and disadvantaged communities.

In sum, I am very pleased with the Final 2018 IEPR Update and request that no changes be made to the report.

Thank you for your consideration of my comments. Please do NOT add my name to your mailing list. I will learn about future developments on this issue from other sources.

Sincerely,
Christopher Lish
San Rafael, CA
