***Subject: CSPTC Annual Report of the California State Pipe Trades Mechanical Acceptance Test Technician Certification Provider to the California Energy Commission.***

California Energy Commission,

The California State Pipe Trades Council (CSPTC) was approved as an Acceptance Test Technician Certification Provider (ATTCP) for non-Residential Mechanical Acceptance Test Technicians and Employers on September 14, 2016.

We have approved Local Union Training Centers in Los Angeles, Concord, Sacramento, San Jose, and San Francisco that are currently teaching the curriculum outlined in the application submitted by the California State Pipe Trades Council and approved by the California Energy Commission. As of this date, we have approximately 57 Mechanical Acceptance Test Technicians and another 54 that are in various stages of fulfilling their requirements to become Mechanical Test Technicians. I have included an up-to-date spreadsheet in this report. We currently have 90 Mechanical Acceptance Test Employers.

We continue to be pro-active in seminars being conducted to bring contractors up to speed on the Title 24 CA Energy Code regarding Acceptance Test Technician Certification Providers for Non-Residential Mechanical Acceptance Test Technician Employers. Independent oversight of the certification processes and procedures to be administered by NITC (National Inspection Testing Certification) is included in these seminars.

This report certifies that the CSPTC ATTCP curriculum has met all requirements for this program as specified in their application and approved by the Energy Commission.

Respectfully Submitted,

Gregory A. Partch  
Executive Director

## Certified Mechanical Acceptance Test Technicians

This list is current as of January 1, 2019 (57 Techs)

Technician	Local	County	Test Date	Expiration Date
<b>Local 230 (1 tech)</b>				
Feiner, Mark A	230	San Diego	2/1/2018	2/1/2021
