# Memorandum

To: Huntington Beach Energy Project Docket (12-AFC-02C)      Date: April 5, 2017

From: Mike Conway, Soil and Water Resources

Subject: Huntington Beach Energy Project Owner's Request for Necessary Revision to Condition of Certification **SOIL&WATER-4** (TN: 216802)

Staff reviewed the project owner's request to modify the language of **SOIL&WATER-4**. Staff has no objection to the proposed change. The modified language simply corrects the intent of the condition, which requires an industrial waste and stormwater discharge permit be obtained from the Water Board prior to commercial operation.
