Agenda

Analysts from market research firms will discuss national and international trends in the plug-in electric vehicle and fuel cell electric vehicle market. Topics that will be presented include:

- Costs of major electric drive components including battery energy storage, fuel cells, and electric motors.
- Automaker strategies for selling electric vehicles.
- Strategies for electric mobility services.
- Impact of incentives and mobility preferences on consumer demand.

A detailed meeting schedule will be posted prior to the workshop at http://www.energy.ca.gov/2019_energypolicy/.

Background

The transportation sector is the largest source of greenhouse gas (GHG) emissions in California. Various state policies call for accelerating the transition to zero-emission vehicles (ZEVs), including:

- The report titled, *California's 2017 Climate Change Scoping Plan: The Strategy for Achieving California's 2030 GHG Target*, by the California Air Resources Board.
- Executive Order B-16-2012 set a goal of reaching 1.5 million ZEVs on California roadways by 2025.
- Executive Order B-48-18 calls for at least 5 million ZEVs on California roads by 2030 and the installation of 250,000 plug-in electric vehicle chargers, including 10,000 direct fast current chargers, and 200 hydrogen refueling stations by 2025.

This workshop will discuss recent progress in ZEV markets and how the outlooks for achieving California's goals may be influenced by advancing technologies, emerging automaker and mobility service provider strategies, and changing consumer preferences.

Public Comment

Oral Comments: Commissioners will accept oral comments at the end of the workshop. Public comments may be limited to three minutes or less per speaker and to one person per organization. If participating via WebEx, use the "raise hand feature" so the administrator can introduce you and unmute your microphone after comments from the floor.

Written comments. Written comments must be submitted to the Dockets Unit by **5:00 p.m.** on May 17, 2019.

Written and oral comments, attachments, and associated contact information (including address, phone number, email address) will become part of the public record of this proceeding with access available via any Internet search engine.
