**CALIFORNIA
ENERGY COMMISSION**

May 14, 2019

Mr. Scott Harding, Supervisor
Resource Planning & Acquisition
Imperial Irrigation District
333 East. Barioni Boulevard
Imperial, California 92251

Dear Mr. Harding:

Thank you for submitting the Imperial Irrigation District (IID) 2019 integrated resource plan (IRP). The California Energy Commission received the plan on April 2, 2019, along with the four standardized reporting tables.

The Energy Commission staff have performed the check for completeness, as described in Chapter 3, Section B.1 of the IRP Guidelines,¹ and has determined that IID's 2019 IRP is complete.

The IRP Guidelines provide a framework to evaluate the consistency of IID's IRP with California's energy, and other policy goals outlined in Senate Bill 350 (de León, Chapter 547, Statutes of 2015), including but not limited to:

- Reductions in electricity sector greenhouse gas emissions commensurate with economy wide reductions of 40 percent from 1990 levels by 2030.
- Renewables Portfolio Standard of 50 percent by 2030.
- Energy efficiency and vehicle electrification targets.
- Addressing procurement of energy storage and resource adequacy.
- Minimize local air pollutants with an early priority on disadvantaged communities.

Consistent with Senate Bill 350 and the IRP Guidelines, the Energy Commission has begun reviewing the IRP for consistency with the requirements spelled out in Senate Bill 350 and subsequent legislation. If staff determines there is a need for additional information to facilitate the Energy Commission's review of the IRP, IID will receive a request for supporting information. The Executive Director's determination finding the IRP consistent or inconsistent with the requirement of the Public Utilities Code Section 9621 will be issued within 120 days (July 3, 2019) of the original submission, unless additional information is required for the IRP review.

¹ See: <http://www.energy.ca.gov/sb350/IRPs/index.html>.

Mr. Scott Harding

The Energy Commission anticipates considering adoption of the Executive Director's determination at an Energy Commission business meeting in October 2019.

If you have any questions regarding your 2019 IRP submission, please contact Paul Deaver at Paul.Deaver@energy.ca.gov or (916) 651-0313.

Sincerely,

Siva Gunda
Deputy Director
Energy Assessments Division
