Help Stop New AES Redondo Power Plant

Pat,

California can do better than the AES power plant that dirties our beautiful coast and pollutes our air. California should lead the way on new energy solutions that help resolve our greatest environmental problems. Let's lead the world in clean energy and focus our efforts on the growth of a new sector of our economy that could reinvigorate the 5th largest economy in the world. The AES plant is not needed to provide energy to Californians. We can do better. Let's move forward not back.

Please reject the AES license application being brought before the California Energy Commission.

Thank you for your consideration.

Mark Kleiman
California resident.
