**CALIFORNIA
ENERGY COMMISSION**

May 20, 2019

Mr. Simon Zewdu, Manager
Regulatory Compliance and Specifications
Los Angeles Department of Water & Power
111 North Hope Street
Los Angeles, California 90012

Dear Mr. Zewdu:

Thank you for submitting the Los Angeles Department of Water and Power (LADWP) 2017 integrated resource plan (IRP). The California Energy Commission received the plan on April 30, 2019, including the four standardized reporting tables.

The Energy Commission staff have performed the check for completeness, as described in Chapter 3, Section B.1 of the IRP Guidelines,¹ and has determined that LADWP's 2017 IRP is complete.

The IRP Guidelines provide a framework to evaluate the consistency of LADWP's IRP with California's energy, and other policy goals outlined in Senate Bill 350 (de León, Chapter 547, Statutes of 2015), including but not limited to:

- Reductions in electricity sector greenhouse gas emissions commensurate with economy wide reductions of 40 percent from 1990 levels by 2030.
- Renewables Portfolio Standard of 50 percent by 2030.
- Energy efficiency and vehicle electrification targets.
- Addressing procurement of energy storage and resource adequacy.
- Minimize local air pollutants with an early priority on disadvantaged communities.

¹ See: <http://www.energy.ca.gov/sb350/IRPs/index.html>.

Mr. Simon Zewdu

Page Two

Consistent with Senate Bill 350 and the IRP Guidelines, the Energy Commission has begun reviewing the IRP for consistency with the requirements spelled out in Senate Bill 350 and subsequent legislation. If staff determines there is a need for additional information to facilitate the Energy Commission's review of the IRP, LADWP will receive a request for supporting information. The Executive Director's determination finding the IRP consistent or inconsistent with the requirement of the Public Utilities Code section 9621 will be issued within 120 days of the original submission, which is August 10, 2019, unless additional information is required for the IRP review.

The Energy Commission anticipates considering adoption of the Executive Director's determination at an Energy Commission business meeting in October 2019.

If you have any questions regarding your 2019 IRP submission, please contact Robert Kennedy at Robert.kennedy@energy.ca.gov or (916) 654-5180.

Sincerely,

Siva Gunda
Deputy Director
Energy Assessments Division
