1. Identification of the Information Being Submitted

SDG&E seeks confidential designation for data provided to the California Energy Commission (“Commission”). SDG&E is providing such data to the Commission as part of the 2019 Integrated Energy Policy Report (“IEPR”) (Docket No. 19-IEPR-02) process and pursuant Title 20, Section 1345 of the California Code of Regulations (“CCR”). Generally, the information for which confidential designation is requested pertains to SDG&E’s electric resource planning, energy balance resource accounting, bilateral contracts and power purchase agreements. As shown below, depending on the specific Form, the data for which confidentiality is being sought ranges over the years 2019-2030. The data is being provided in Excel spreadsheets and in total is approximately less than one megabyte in size.

2. Description of the Data or Information for which Confidentiality Is Being Sought

IEPR Form S-1: Adjusted Demand: End-Use Customers, Col I-T, Row 16
IEPR Form S-1: Firm LSE Procurement Requirement, Col I-T, Row 18
3. Description of the period for which confidentiality is being sought

SDG&E requests that the data indicated be kept confidential for a period of three years, or through December 31, 2021. This length of protection is required to ensure that SDG&E’s detailed supply forecast data remains secure from market participants who could otherwise make competitive use of this information to the detriment of utility ratepayers. The three-year confidentiality period requested by SDG&E is consistent with the protection given to this same data by the California Public Utilities Commission (“CPUC”). Three years is adequate time for the demand forecast data to become “stale” in terms of price movement in the relevant markets, and SDG&E has no objection to the data being made public after that time.

4. Information Substantially Similar to Information Previously Deemed Confidential by the Commission Continues to Warrant Confidential Treatment

The information for which confidentiality is being sought is substantially similar to information that was previously deemed confidential by the Commission. Accordingly, attached as Attachment A to this Application is a certification, executed under penalty of perjury, stating that the submitted information is substantially similar to the previously submitted information. This certification applies to the following categories of information:

IEPR Form S-1: Forecast Total Peak-Hour 1-in-2 Demand, Col I-T, Row 1
IEPR Form S-1: Additional Achievable Energy Efficiency / Demand Response-Interruptible Programs, Col I-T, Row 3-4
IEPR Form S-1: Adjusted Demand: End-Use Customers, Col I-T, Row 5
IEPR Form S-1: Coincidence Adjustment, Col I-T, Row 6

IEPR Form S-1: Required Planning Reserve Margin, Col I-T, Row 8
IEPR Form S-1: Firm LSE Procurement Requirement, Col I-T, Row 11
IEPR Form S-1: Forecast Total Energy Demand/Consumption, Col I-T, Row 12
IEPR Form S-1: Additional Achievable Energy Efficiency / Demand Response-Interruptible Programs, Col I-T, Row 14-15
Pursuant to CCR, Title 20, Section 2505(a)(4), the foregoing information should be deemed confidential.
